

SANICONDENS[®]

Pumps away condensate

Pump Type:
CONDENSATE PUMP

Discharge up to:
↑ 15 Ft. ↑ and/or ← 150 Ft. →

Power/Electrical Information:
115V – 60 Hz / 1/30HP / 1.5 A

Dimensions:
H 6 $\frac{5}{8}$ " (17cm) x W 9 $\frac{1}{2}$ " (24.2cm) x
D 5 $\frac{5}{8}$ " (14.3cm)

Discharge pipe diameter:
 $\frac{3}{8}$ " vinyl tubing

Discharge flow rate at 15':
30 gal per hour (114 liters per hour)

Discharge flow rate at 3':
86 gal per hour (326 liters per hour)

Max. Temperature:
160°F (70°C)

- One of the **most powerful and quiet condensate pumps** on the market with standard features that no competitor can match.
- Pumps the condensate discharge from a **condensing boiler or other water producing fixtures** to an existing drain.
- Comes with provisions for a ready-to-wire connection to an **external overflow switch** that will shut down an appliance or alert the homeowner.
- The two quart capacity condensate pump comes **equipped with 20 feet of vinyl tubing and with a discharge connection** to adapt to a PVC pipe.

Part# 040

Possible Connections:

- **Discharge**
- **Connect to boiler, air conditioner, etc.**

An easy solution to pump condensate away from condensing boilers and air conditioners.
