IMPORTANT SAFEGUARDS

When using an electrical appliance, basic precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING THIS VACUUM CLEANER WARNING

To reduce the risk of fire, electric shock, or injury:

- Do not use outdoors or on wet surfaces.
- **Do not leave vacuum cleaner when plugged in.** Turn off the switch and unplug the electrical cord when not in use and before servicing.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use with damaged cord or plug. If vacuum cleaner is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center before using.
- Do not pull or carry by cord. Do not use cord as a handle. Do not close a door on cord or pull cord around sharp edges or corners. Do not run vacuum cleaner over cord. Keep cord away from heated surfaces.
- Do not use extension cords or outlets with inadequate current carrying capacity.
- Turn off all controls before unplugging.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or vacuum cleaner with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
- This vacuum cleaner creates suction and contains a revolving brush roll. Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not place vacuum cleaner on furniture or stairs as the brush roll may cause damage. Use extra care when cleaning stairs. Place vacuum cleaner on floor with the handle in storage position while using attachments.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use without dust cup, filter, screen and exhaust filter in place.
- Belt pulleys can become hot during normal use. To prevent burns, avoid touching the belt pulley when servicing the drive belt.
- Do not use to pick up flammable or combustible liquids such as gasoline, or use in areas where they may be present.
- Store your vacuum cleaner indoors in a cool, dry area.
- Keep your work area well lighted.
- Unplug electrical appliances before vacuuming them.
- Unplug before connecting turbo nozzle.

SAVE THESE INSTRUCTIONS

To reduce the risk of electric shock, this appliance has a polarized plug (one blade is wider than the other). This plug will fit in a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician to install the proper outlet. Do not change the plug in any way.

Motor

Do Not Oil the motor or the brush roll at any time. The bearings are permanently lubricated and sealed.

How to identify parts of your vacuum cleaner

NOTE: For further instructions, see Owners Guide at www.eureka.com

Problem solving

 **Make sure vacuum is turned off and power cord is unplugged.**

NOTICE: Thermal cut-off

This vacuum cleaner has a special thermostat that protects the vacuum in case of motor overheating. **If the vacuum suddenly shuts off**, proceed as follows: 1) Push the power switch to off and unplug the vacuum. 2) Check the vacuum for a possible source of overheating such as a full dust cup, blocked hose or clogged filter. If these conditions are found, fix them and wait at least **30 minutes** before attempting to use the vacuum. 3) After the 30 minute period, plug the vacuum back in and turn on the switch. If the vacuum still does not work, call the Eureka customer service helpline.

Problem	Solution
Motor will not start.	• Push plug securely into outlet, try another outlet or check circuit breaker. • Step on power switch to turn vacuum on. • See detailed "thermal cut-off" instructions above.
Vacuum does not clean carpet or bare floor.	• Turn air path selector knob to 'FLOORS.' • Empty dust cup, clean and/or change filter. • Clean or replace filters regularly to maintain suction. See www.eureka.com.
No suction at the end of hose.	• Make sure airpath selector knob is set to 'TOOLS.' • Remove clogs from the hose that restrict the airflow. See www.eureka.com • See other solutions above.
Burning smell; brush roll will not turn.	• Check brush roll for debris. • Replace broken or out of shape belt. See www.eureka.com.
Turbo nozzle will not turn.	• Check turbo nozzle for debris. • Make sure air path selector knob is set to 'TOOLS.'
Vacuum is hard to push.	• Adjust vacuum height knob to a higher position.

The Eureka limited warranty

Eureka warrants this vacuum cleaner to be free from defects in material and workmanship for a term of three years for normal household use. Warranty is granted only to the original purchaser and members of immediate household.

This warranty is good for three years from the date of purchase only when the vacuum cleaner is used in the accordance with Eureka operating instructions. **Note:** refurbished or remanufactured products have a one year limited warranty.

This warranty does not cover

- Parts of the vacuum that require replacement under normal use such as disposable dust bags, filters, drive belts, light bulbs, brush roll, bristles, impellers and cleaning.
- Damages or malfunctions caused by negligence, abuse, and use not in accordance with the Owner's Guide.
- Defects or damages caused by unauthorized service or the use of other than Genuine Eureka, ARM & HAMMER™ and Filtrrete™ by 3M parts.

What Eureka will do

Eureka will, at its option, repair or replace a defective vacuum or vacuum part that is covered by this warranty. As a matter of warranty policy, **Eureka will not refund the consumer's purchase price.**
