

Code Keeper® Extra-Duty Non-Metallic While-In-Use Covers

Red•Dot® Code Keeper® Extra-Duty While-In-Use Covers make it easier than ever to comply with National Electrical Code® (NEC®) requirements for receptacles in wet locations.

Weatherproof covers are often subject to bumps and impact through everyday use, but this reinforced design withstands abuse, featuring a stainless steel hinge pin for rugged cover attachment that's great for high-traffic areas.

Preconfigured for GFCI, each cover ships with adapter plates to accommodate single or duplex receptacles and switches. Now, contractors can handle any application they encounter without needing dozens of different covers.

Red•Dot® Code Keeper® Extra-Duty Non-Metallic While-In-Use Covers

Catalog Number	Top Color	Bottom Color	Std. Pack Qty.	UPC Number w/ Check Digit
Single Gang Shallow – Vertical or Horizontal – 2 ¼" Deep
