ADJUST-A-GRATE

A grate solution that covers the hole problem[®]

Adjustable Aluminum Window Well Grates

- ✓ Custom Fit
- ✓ Maintenance Free
- ✓ Strong & Lightweight
- ✓ Easy to Install
- ✓ 10 Year Warranty

CUSTOM FIT WITHOUT THE CUSTOM PRICE

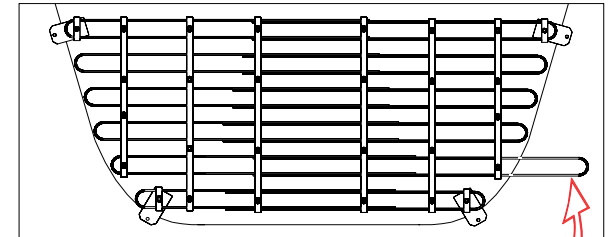

All window wells (even on the same home) can be a slightly different size and shape as a result of backfilling, installation, etc. Adjust-A-Grate's patented design will adjust to a range of sizes and window well contours (see size chart).

- ▶ **Maintenance Free** - Constructed of lightweight tempered aluminum which will never rust or need painting.
- ▶ **Strong and Lightweight** - Tempered aluminum construction will support up to 400 pounds yet is light enough for easy exit (Model L6 is only 17 pounds).
- ▶ **Daylight and Fresh Air** - Open design allows plenty of natural light and ventilation to basement.
- ▶ **Easy to Install** - Step-by-step instructions and video (see back) lead you through adjustment and installation.
- ▶ **No Special Tools** - A 7/16" Wrench, tape measure, and pencil or marker are all the tools required to adjust and install the grate.
- ▶ **Optional Security Kit with Quick Release** - deters outside entry while allowing easy emergency exit (see back panel).
- ▶ **Custom Fit** - Because each component loop of the Adjust-A-Grate adjusts independently of the others, each model of grate will fit various contours and shapes.
- ▶ **10 Year Warranty** - Adjust-A-Grate warrants that it will replace any part of this product that proves defective in material or workmanship within ten years from the date of purchase by a consumer. Adjust-A-Grate assumes no responsibility for the results of improper installation or abnormal use.

DO IT YOURSELF IN 3 EASY STEPS

- 1** Lay the grate's unfolded box over the window well. From the underside, trace the inside contour with a pencil.
- 2** Place the tracing on a table or the floor, lay the grate on top of it with the grate's underside facing up.

Each loop moves independently

- 3** Adjust the grate to fit the tracing following the step-by-step instructions included, then place adjusted grate on well.

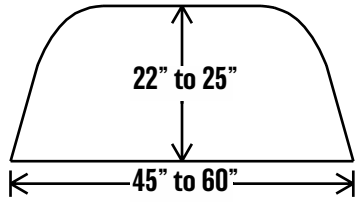

**Full Step-by-Step
Installation Video**

GRATE.COM/INSTALLATION

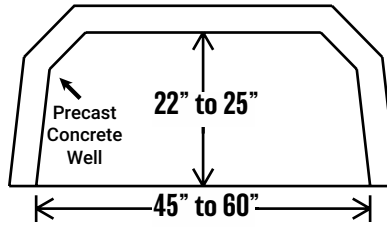

Select the well shape and *interior* size range that matches your well. The model shown will be the grate your well requires.

Model **L6**

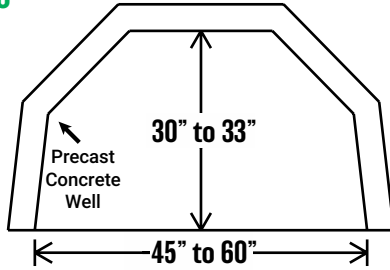

All dimensions are **inside** measurements.

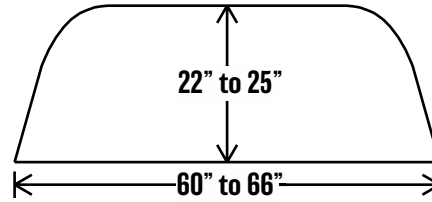

or

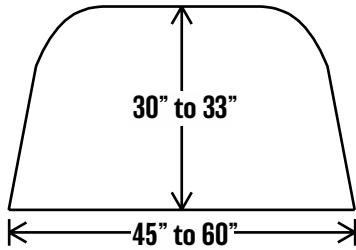

Model **PC8**

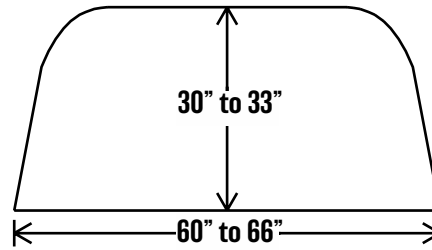

Model **XL6**

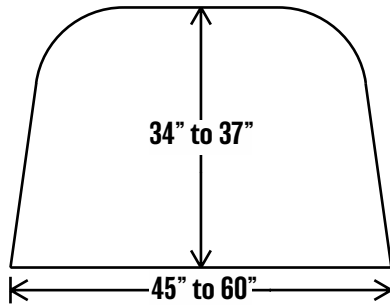

Model **L8**

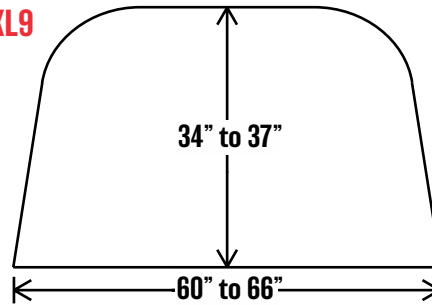

Model **XL8**

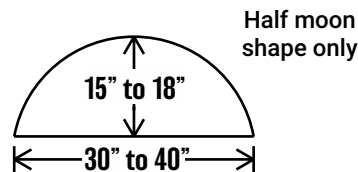

Model **L9**

Model **XL9**

Model **S4**

Half moon shape only
