Wider, longer and more elegant.

Engineered Click Lock

Engineered Tongue & Groove

Why sliced face hardwood veneer?

Sliced Face

Rotary Peeled

Malibu Wide Plank is a sliced-face hardwood floor, differing from traditional rotary peel engineered floors. Where rotary peel constructions result in non-uniform, swirling grain patterns, sliced face hardwood produces longer, more dramatic grain patterns—the look of custom solid hardwood floors. Sliced Face reinvents engineered hardwood without sacrificing affordability in the process.

Installation—how easy do you want it?

There's a style of Malibu Wide Plank for everyone.

#### Engineered Click Lock

These floors are the right choice for those who want ultimate ease—DIYers will love it as they really do simply click into place without nails or glues, and can be installed above, below or at grade. These 3/8" thick planks measure 6.5" wide with random lengths from 15" to 48", 70 percent of the flooring in each carton is a full 48" length.

#### Engineered Tongue & Groove

If quality comes first, Malibu Wide Plank's 1/2" thick product can be installed above, below or at grade by: nailing (or mechanically fastening) down; "floating" with a simple glue between planks; or glued down with a full trowel adhesive. Dimensions are: 7.5" wide with random lengths from 15" to 74", 50 percent of the flooring in each carton is a full 74" length.

# Color Your World Beautiful

Shop **10 gorgeous colors** of hand stained Malibu Wide Plank broken down into four color groups: Airy and light whitewash shades that are the “trend” of the moment; medium-to-dark grays that embody contemporary sophistication; classic mid-tones with limitless versatility; and rich browns that take traditional to a beautiful new place. Step out of your comfort zone and explore before deciding!
