

Impact GOLD® 26 Pc. Torsion Bit Set

Part No. B-46919

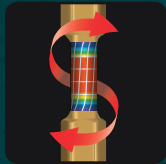

The Gold Standard Designed Exclusively for High-Torque Impact Drivers

**LASTS
10X
LONGER**

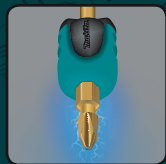

DURABILITY
Impact GOLD® insert bits last up to 10X longer than standard insert bits

**1 BIT
2 TIPS**

CONVENIENCE
Double Ended Power Bits feature one bit with two magnetic tips for quick bit changes

DESIGN
Xtreme Torsion Technology is engineered to allow the torsion section of the bit and holder to flex

EFFICIENCY
Mag Boost makes any power bit magnetic

Impact GOLD®

Xtreme Torsion Technology

FEATURES

- Impact GOLD® insert bits last up to 10X longer than standard insert bits
- Double Ended Power Bits feature one bit with two magnetic tips for quick bit changes
- Xtreme Torsion Technology is engineered to allow the torsion section of the bit and bit holder to flex under load, taking pressure off of the bit tip for increased durability in high torque applications
- Mag Boost makes any power bit magnetic
- Two-piece bit holder design is engineered to allow the torsion technology to fully activate
- Insert bit holder features a rare earth Neodymium magnet, 2X stronger than magnets in standard insert bit holders
- High-quality steel engineered for use with impact drivers
- Insert bits feature precision-fit tip engineered to prevent “cam-out” and stripping
- Combine bits with Impact GOLD® bit holder to last up to 15X longer than standard insert bits

STANDARD EQUIPMENT

- (1) Mag Boost
- (1) Torsion bit holder
- 1" Insert bits: (2) PH1, (5) PH2, (3) PH3, (1) SQ1, (2) SQ2, (1) SQ3, (1) T15, (1) T20, (2) T25, (1) T27, (1) T30 - **Total (20)**
- 2-1/2" Double ended power bits: (1) PH2, (1) PH3 - **Total (2)**
- Magnetic nutsetters: (1) 1/4", (1) 5/16" - **Total (2)**
