- Used #1 railroad tie. Black in color

Treatment

- #8 50/50 creosote
- Nonguaranteed product
- Bar coded

Size	Length	Unit	Species	Surface
7 x 9	8'	20 (approx.)	Mixed	8# 50/50 Creosote

Intended Use

- Utility landscaping and earth retaining

Safety and Handling

- See EPA-approved Consumer Information Sheet prior to use
- The minimal corrosivity of EXTRAGREEN™ wood is similar to that of traditional wood. Hot-dipped galvanized fasteners (meeting ATM A 153) and connectors (ASTM A 653 Class G185 sheet), or better, are recommended for protection against the effects of moisture often present where treated wood is used. For Permanent Wood Foundations, use 304 or 316 stainless steel. Aluminum should not be used in direct contact with this wood.
