ASSEMBLY & CARE ADVICE

FOR YOUR FURNITURE TO LAST, CORRECT ASSEMBLY AND PROPER MAINTENANCE ARE NECESSARY. PLEASE FOLLOW THE INFORMATION PROVIDED BELOW TO FULLY ENJOY YOUR FURNITURE.

BASIC ASSEMBLY TECHNIQUES

It is highly recommended that the assembly should be done near the area of its intended location. Make sure you have enough space to move around during the assembly.

Position each part correctly and insert screws or bolts into their respective holes by hand tighten or using the proper hand tool. Only tighten when step is completed or when instructed to do so.

Use cardboard or carpet area when assembling furniture to prevent scratches. Make sure the furniture rests on a flat and level surface with each leg evenly touching the floor.

ALWAYS have at least two people to help with transporting and assembling the product to avoid any potential injury and/or damage.

Make sure all parts are properly aligned, then use the appropriate hand tool to completely tighten the bolts or screws. Do not use power tools and do not overtighten.

Save the instructions and store any supplied tool for later maintenance. After two weeks, check and tighten any loose hardware and repeat again every six months thereafter.

IT IS THE USER'S RESPONSIBILITY TO MAINTAIN THE FURNITURE. THE HARDWARE MAY LOOSEN OVER TIME AND MAY CAUSE THE FURNITURE TO BE WOBBLY AND UNABLE TO SUPPORT ITS INTENDED WEIGHT CAPACITY. THIS MAY LEAD TO COLLAPSE AND MAY CAUSE SERIOUS INJURY.

FAILURE TO FOLLOW THE GUIDELINES ABOVE MAY
RESULT IN INJURY AND/OR PROPERTY DAMAGE.

PRE-ASSEMBLY INTRODUCTION

Unless you are particularly adept at assembling flat-pack/knock-down furniture, we understand building ready-to-assemble furniture can be a frustrating experience for some. To help avoid confusion and to make the assembly process quicker and smoother, we have provided some helpful tips. Before you begin the assembly, please read the following:

1. Due to the size and/or weight on most of the ready-to-assemble furniture, it is highly recommended that the assembly should be done near the area of its intended location. Make sure you have enough space to move around during the assembly. ALWAYS have at least two people to help with transporting and assembling of the product to avoid any potential injury and/or damage.
2. To protect from damage, assemble the item on a clean, protective surface, such as on a carpet or cardboard.
3. Make sure you have taken all the parts and hardware out of their packaging. Do not throw away packaging material until assembly is completed.
4. Make sure all parts and hardware are accounted for by comparing the actual parts and hardware to the list provided in the assembly instructions. Also check for any irregularity such as crack, flaw or improperly drilled hole. If there is any problem or missing piece, please contact the manufacturer or the supplier. Please have the model number, part number and a brief description of the problem ready will help expedite the replacement process.
5. Read the entire instruction manual and view the diagrams first before assembling. Arrange your parts in order of use and group the identical hardware together to make it easier to grab each piece as you begin to assemble.
6. During the assembly process, make sure all parts are properly aligned before tightening with the tool provided or required for the assembly. Do not use power tools and do not over tighten.
7. When applying glue to the wood dowels to bond the parts together, please be ABSOLUTELY certain that the parts are correct and lined up with each other (refer to diagrams and take notice of the various pre-drilled hole locations). When in doubt, assemble the parts together first and if the parts fit right, then apply glue to the wood dowels.

CAM LOCK FASTENER ASSEMBLY INSTRUCTIONS

Note: Every cam lock bolt must have a cam lock connector in order to fasten the parts together.

- (1) Secure the threaded end of the cam bolt by using a screwdriver.

Turn right (clockwise) to tighten.

Align the cam connector with its side opening (or arrow) pointing to the small drilled hole.

- (2) Insert the cam lock bolt into the pre-drilled hole above the cam connector.

- (3) Two parts should fit snugly against each other.

- (4) Turn the cam connector with a screwdriver until it will not turn any more with light to moderate force.

Turn right (clockwise) to tighten.

VANITY TABLE ASSEMBLY

STEP1

Hardware #1 = 10pcs

Insert the cam bolts (1) into the holes and secure using a Phillips screwdriver.

STEP2

Hardware #1 = 10pcs

VANITY TABLE ASSEMBLY

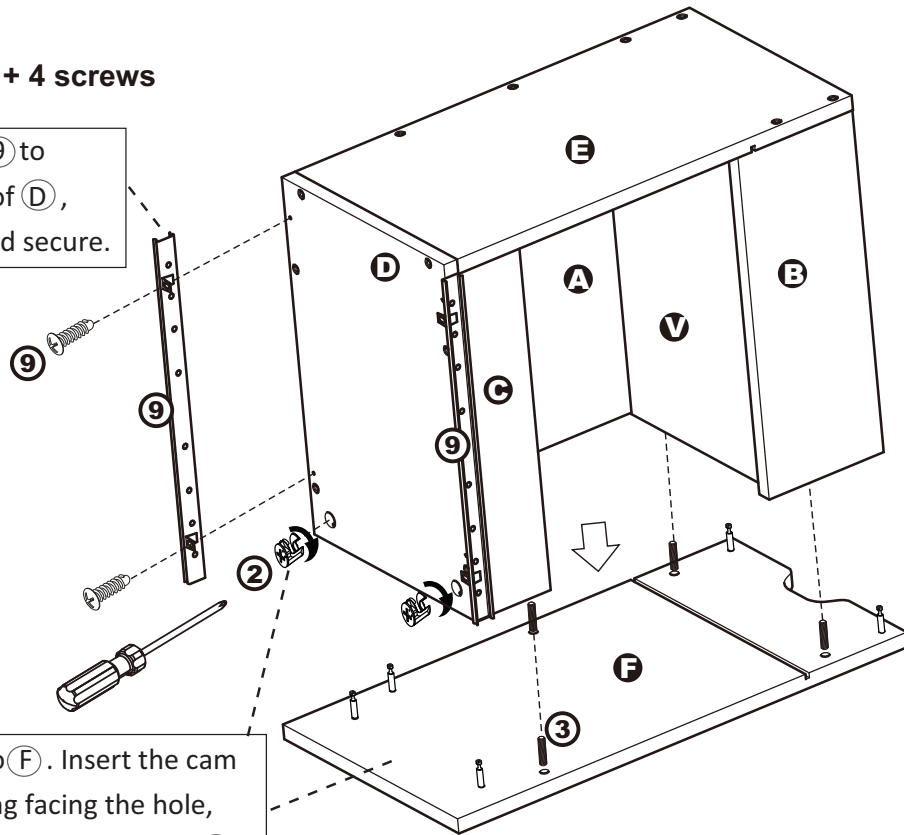

STEP5

Hardware #2 = 5pcs

Hardware #3 = 4pcs

Hardware #9 = 2 inner + 4 screws

2. Align the INNER part of ⑨ to the holes along the side of ④, then insert the screws and secure.

1. Insert the dowels ③ into ⑥. Insert the cam locks ② with the opening facing the hole, then insert ④ and secure the cam locks ②.

STEP6

Hardware #2 = 2pcs

Hardware #3 = 2pcs

Hardware #4 = 4pcs

1. Apply glue, then insert the dowel ③ into ④.

2. Insert the cam locks ② with the opening facing the hole, then place ⑥ & ⑦ onto ④. Secure ②.

3. Slide ⑧ into the ridges.

4. Insert the screws ④ and secure.

VANITY TABLE ASSEMBLY

STEP7

Hardware #1 = 4pcs

Hardware #11 = 2 hinges + 6 screws

STEP8

Hardware #2 = 4pcs

Refer to page #5 for cam lock assembly.

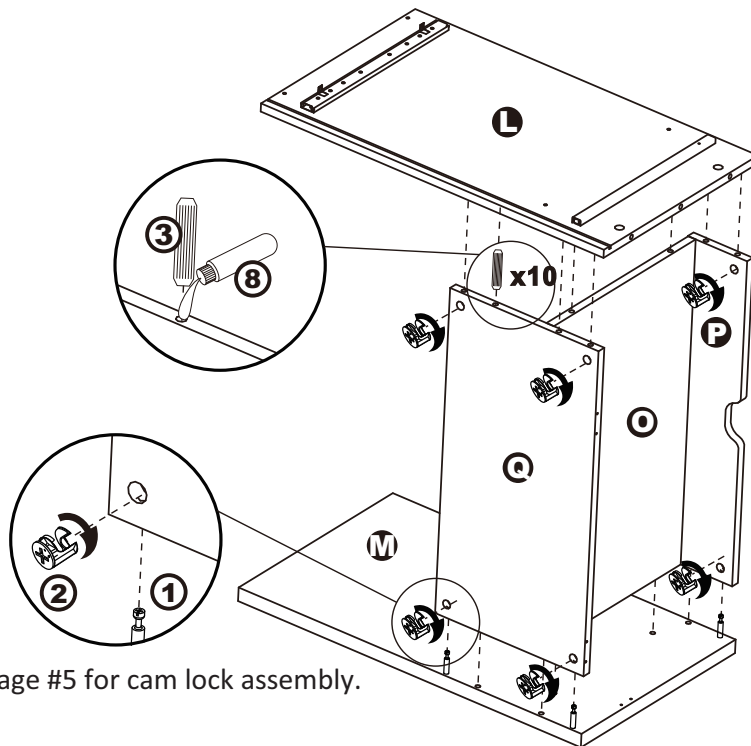

VANITY TABLE ASSEMBLY

STEP9

Hardware #1 = 3pcs

Hardware #2 = 6pcs

Hardware #3 = 10pcs

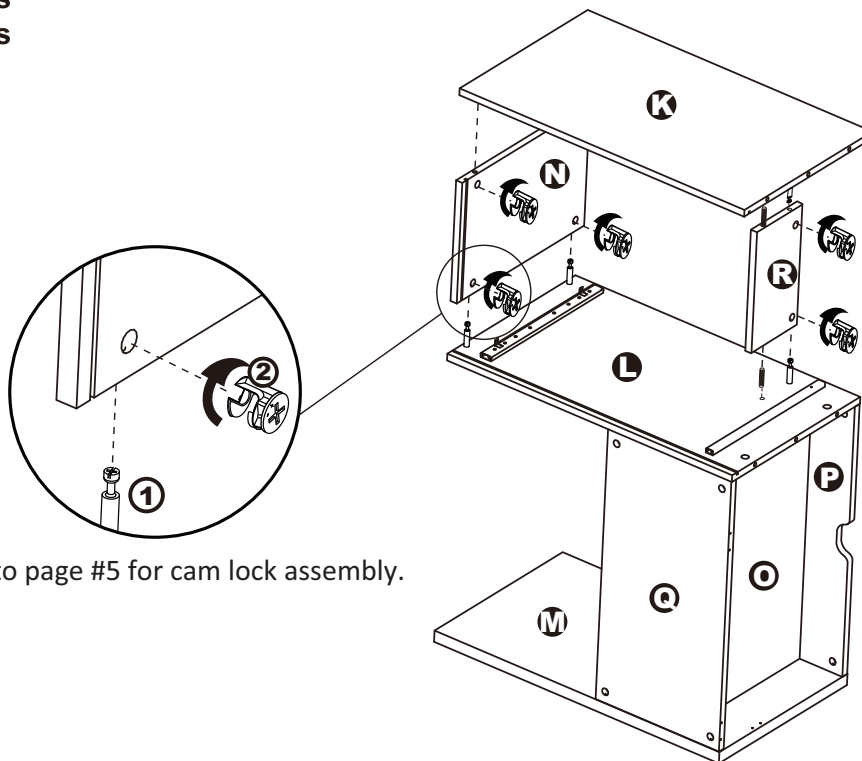

Refer to page #5 for cam lock assembly.

STEP10

Hardware #2 = 6pcs

Hardware #3 = 2pcs

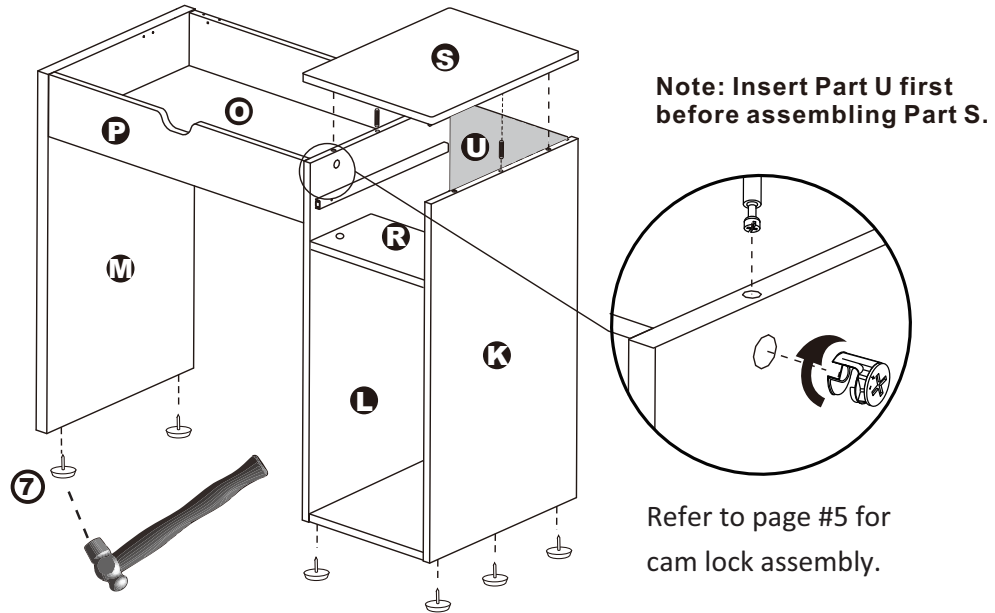

Refer to page #5 for cam lock assembly.

VANITY TABLE ASSEMBLY

STEP11

Hardware #2 = 4pcs

Hardware #7 = 6pcs

STEP12

Hardware #10 = 1 arm hinge + 2 screws

VANITY TABLE ASSEMBLY

STEP13

Hardware #10 = 2 screws

Hardware #11 = 6 screws

STEP14

Hardware #4 = 4pcs

VANITY TABLE ASSEMBLY

STEP15

STEP16

Hardware #6 = 2pcs

Extend the two outer slides ⑤ so that they are align with the sides of the drawer. Make sure the pre-drilled holes from the drawer align with the screw holes of the slides. Secure the two screws ⑥ from the inside of the drawer using a Phillips screwdriver to tighten them to the outer slides.

VANITY TABLE ASSEMBLY IS COMPLETED

Make sure the table is rested on a flat surface and does not feel loose or wobbly. If it does, double check that the bolts/screws are secured and properly tightened.

STOOL ASSEMBLY

STEP1

Hardware #11 = 2 hinges + 6 screws

STEP2

Hardware #12 = 6pcs

STOOL ASSEMBLY

STEP3

STEP4

Hardware #7 = 4pcs
Hardware #12 = 6pcs

STEP5

Hardware #11 = 6 screws

STOOL ASSEMBLY IS COMPLETED

Make sure the table is rested on a flat surface and does not feel loose or wobbly. If it does, double check that the bolts/screws are secured and properly tightened.
