SpeediChannel™ is the perfect universal installation system - combining high quality resins in a paintable natural color easily adapted to any colored mounting, and SpeediClip™, a unique sliding rail system that makes line set installation a one man job. DiversiTech SpeediChannel™ is easier to inventory, transport and install than competing brands, and the flat pack design reduces warehouse storage and contractor transport space. Tight fit corner design & installation accessories deliver the contractor a clean install every time.

DiversiTech SpeediChannel™ is a system used to cover line sets, drain lines, and control cables when they can not be installed inside a wall.

The stability of the color of the Product is such that after 5 years external exposure in the climate zone defined within following paragraph, the contrast on the Grey scale according to ISO EN 105 A02 of the finished goods made from the Product will not be below level 3, when compared to an unexposed control sample of the same grade
