

FAST INSTALLATION, FLUSH FIT AND A FIRM GRIP FOR A WIDE RANGE OF MATERIALS AND SIZES

Drywall Anchor
HTB-2

When designing this drywall anchor we focused on every detail to deliver a faster installation. The rounded edges for easy fit through the wall, the metal teeth to prevent spinning inside the wall, and the snap-neck design all compliment a quick and easy installation every time.

These improvements in design make the HTB-2 the drywall fastening solution that is ideal for a variety of hollow wall materials in a wide range of thicknesses.

APPLICATIONS AND ADVANTAGES

Advantages

- The thinner collar provides a flush finish
- Large range of fastening thickness from 1/2" to 3"
- Rounded edges make it easy to install through the wall
- Metal teeth increase grip preventing rotation while installing the screw
- Spring mechanism forces the channel into the vertical position once installed through the wall

Applications

- Partition walls, light duty hand rails, lighting fixtures, cabinets and shelving, and TV mounts

Technical data

Base materials	Drywall, Concrete (Hollow deck), Masonry (Hollow)
Environment conditions	Indoor, Dry Conditions
Head configuration	Inner thread
Product class	Economical

Description	Item number
HTB-2 3/16	2158767
HTB-2-S 3/16 PH	2158768
HTB-2-S 3/16 SRH	2158769
HTB-2 1/4	2158770
HTB-2-S 1/4 PH	2158771
HTB-2-S 1/4 SRH	2158772
HTB-2 3/8	2158773
HTB-2-S 3/8 SRH	2158774
