

Plant-Your-Own Succulent Garden Kit

Needs BRIGHT LIGHT TO PART SUN exposure

You can do it.
We can help.

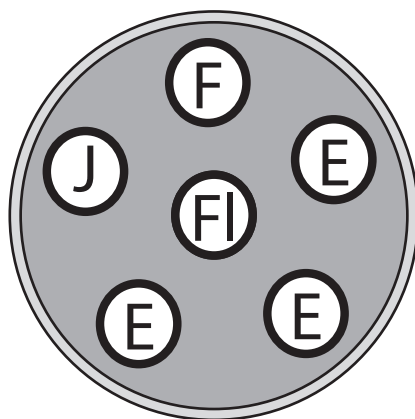

Your kit includes:

- 1 - 12" Bowl
- 1 - 9cm Firesticks
- 1 - 9cm Jade
- 1 - 9cm Flapjacks
- 3 - 9cm Echeveria

--You will also need approximately one gallon of well draining soil, and some pebbles or glass drops to use as a final dressing, if desired.

INSTRUCTIONS:

- Fill bowl with soil to 5" below the rim.
- Remove plants from shipping pots and place according to the diagram below, or as you please.
- Add soil to fill. Make sure the soil is at least 1" below the top of the bowl to permit easy watering. Tamp firmly.
- Spread a pebbles or glass drops over bare spots, if desired.
