

CONCRETE FURNITURE CARE GUIDE

- Clean all spills as soon as possible. All liquids should be wiped immediately until completely dry using an absorbent cloth or paper towel.
- Do not place anything on the surface that can trap moisture beneath it.
- Be sure not to use any abrasive cleaners, you may use a mild soap and water.
- Keep product protected from hot items, by using coasters or trivets. The heat may damage the finish.
- Do not drag the furniture this will cause damage to your floors as well as the furniture.
- Always lift product with (2) able persons.
