FOLLOW INSTRUCTIONS FOR SET UP AN OPERATION OF BLOWING MACHINE
SIGA LAS INSTRUCCIONES PARA EL MONTAJE Y FUNCIONAMIENTO DE LA MAQUINA SOPLADORA.

- 1** Position blowing machine outside the house. Plug in an attached 100' hose.
Coloque la maquina sopladora fuera de la casa. Conecte a una manguera de 100'.
- 2** Run hose to attic through nearest access. Avoid tight turns.
Lleve la manguera hasta el atico a traves del acceso mas cercano. Evite los giros estrechos.
- 3** Blow insulation into attic or top of existing insulation to desired thickness / R-Value.
Sople el aislamiento en el atico o sobre el aislamiento existente para el espesor / valor de R deseado.

ATTIC PREPARATION

- Maintain attic ventilation. Insulation should not cover any attic ventilation.
Use baffles or vent chutes.
- Do not cover soffit vents. Insulation should not cover or touch heat producing components like light fixtures. Create barriers to maintain a 3" clearance.
- Create a barrier around your attic access to keep the insulation in place when entering or exiting the attic.

STORAGE AND DISPOSAL. Do not contaminate water, food, or feed by storage or disposal. Nonrefillable container. Do not reuse or refill the container. IF EMPTY: Place in trash or offer for recycling if available. IF PARTLY FILLED: call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

It is a violation of Federal law to apply this product in a manner inconsistent with its labeling. "R" means resistance to heat flow. The higher the R-value the greater the insulating power. To get the marked R value, it is essential that this insulation be installed properly.

Insulation applicators installing this material should be familiar with and carefully follow installation instructions from the manufacturer.

NOT FOR USE AS SOLE PROTECTION AGAINST TERMITES. Use of this product does not substitute for pre- and/or post-construction mechanical alteration, soil treatment or foundation treatment. For active termite infestations, you should consult a licensed pest management professional.

FIRST AID

If on skin or clothing:

Take off contaminated clothing.
Rinse skin immediately with plenty of water for 15-20 minutes.
Call a poison control center or doctor for treatment advice.

If in eyes:

Hold eye open and rinse slowly and gently with water for 15-20 minutes.
Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or when going for treatment.
