The Choreograph® shower wall and accessory collection embodies practical elegance with its beautifully understated designs and smart functionality. And it makes it easier than ever to customize the shower to your needs .

**Beautiful Shower System**

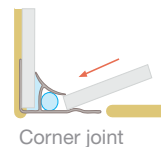

The shower walls come in a range of colors, patterns and textures and feature a matte finish that suits a wide range of decors.

**Clever Storage and Support**

The thoughtfully designed storage options provide space to organize shower items and also offer support in the shower.

**Easy Installation**

The joint system makes installation simple. The walls can be trimmed on site for custom cuts and can be installed over tile.

**Durable**

The walls are manufactured from Serica®, a proprietary composite material engineered to the highest standards of performance for long-lasting beauty, designed to withstand the rigors of on-site job handling and installation.

**Low-Maintenance**

The joints leave a minimal seam for a finished look concealing the silicone. This makes it easy to clean and maintain the shower walls.

Install the floating shower shelves either inside or outside the shower to open up more storage possibilities.

The shower barre is designed specifically for storing shower products, and it also provides stability and support in the shower.

Adding hooks inside or outside the shower is a simple way to store robes and towels while freeing the floor from clutter.

Corner and seam joints connect full and accent panels for cohesive design, ease of cleaning and easy, long-term maintenance.
