

PICTURE FRAME HANGING INSTRUCTIONS

- 1.) Determine location where you would like your picture frame to be placed.
- 2.) Hold the picture frame up on the wall near eye level.
- 3.) Mark the wall on the top center of the picture frame with a pencil.
- 4.) Measure the distance of the back of the picture frame from the top to the mounting hook or the center of the stretched wire.
- 5.) Measure the same distance from the pencil mark on the wall and mark this point with another pencil mark. This will be the placement of the nail or screw.
- 6.) Hang picture frame. You may opt to use a level to verify that the frame is hung straight.
