SECTION 2. Hazards iden	tification.	
2.1. Classification of the substanc	e or mixture.	
Hazard pictograms:		
The product is not classified as hazardous		
pursuant to the provisions set forth in OSHA Hazard		
Communication Standard (HCS) (29 CFR		
1910.1200). However,		
since the product contains hazardous		
substances in concentrations such as to		
be declared in section no.		
3, it requires a safety data sheet with appropriate		
information.		
Signal words:		
Hazard statements:		
Dragoutionan ( statements)		
Precautionary statements:		

	Fila Ch	emicals USA	Revision nr. 4
			Dated 4/5/2015
	FUGAPROOF -	FILAGROUT PRO	Printed on 04/05/2015
			Page n. 2/10
Prevention:			
Response:			
 Storage:			
 Disposal:			
2.2. Other hazards.			
The product is not classified as hazard	ous for environment pursuant to the	e provisions set forth in EC I	Regulation 1272/2008 (CLP).
SECTION 3. Composition	/information on ingredie	ents.	
3.1. Substances.			
Information not relevant.			
3.2. Mixtures.			
Contains:			
Identification. ACRYLIC COPOLYMER	Conc. %.	Classification:	Trade Secret:
CAS. 403730-32-5	9 - 15	Acute Tox. 4 H332	§
Note: Upper limit is not included into th	e range.		
§ The exact percentage (concentration	) of composition has been withheld	as a trade secret.	
The full wording of the hazard (H) phra	ses is given in section 16 of the she	eet.	
SECTION 4. First aid mea	isures.		
4.1. Description of first aid measu	es.		
EYES: Remove contact lenses, if pre	esent. Wash immediately with plen	ty of water for at least 30-	60 minutes, opening the eyelids fully. Get medical
advice/attention. SKIN: Remove contaminated clothing.		-	
INGESTION: Have the subject drink a			not induce vomiting unless explicitly authorised by a
			the accident scene. If the subject stops breathing,
administer artificial respiration. Take su	litable precautions for rescue worke	ers.	

## 4.2. Most important symptoms and effects, both acute and delayed.

For symptoms and effects caused by the contained substances, see chap. 11.

4.3. Indication of any immediate medical attention and special treatment needed.

	Fila Chemicals USA	Revision nr. 4
		Dated 4/5/2015

formation not available.		
SECTION 5. Firefightin	g measures.	
5.1. Extinguishing media.		
UITABLE EXTINGUISHING EQUI he extinguishing equipment shoul NSUITABLE EXTINGUISHING EC one in particular.	d be of the conventional kind: carbon dioxide, foam, powder and water spray.	
5.2. Special hazards arising from	m the substance or mixture.	
AZARDS CAUSED BY EXPOSUR o not breathe combustion product		
5.3. Advice for firefighters.		
ear full fire prevention gear. Coll ktinction and the remains of the fir PECIAL PROTECTIVE EQUIPME ormal fire fighting clothing i.e. fire	iners to prevent product decomposition and the development of substances ect extinguishing water to prevent it from draining into the sewer system. e according to applicable regulations. INT FOR FIRE-FIGHTERS kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and ressed air breathing apparatus (BS EN 137).	Dispose of contaminated water used for
SECTION 6. Accidental	release measures.	
6.1. Personal precautions, prote	ective equipment and emergency procedures.	
	ard. nt (including personal protective equipment referred to under Section 8 o sonal clothing. These indications apply for both processing staff and those in	
6.2. Environmental precautions		
he product must not penetrate into	the sewer system or come into contact with surface water or ground water.	

## 6.3. Methods and material for containment and cleaning up.

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Check incompatibility for container material in section 7. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

Fila Chemicals USA	Revision nr. 4
	Dated 4/5/2015

# FUGAPROOF – FILAGROUT PROOF

Printed on 04/05/2015

Page n. 4/10

6.4. Reference to other sections.

FIN

Any information on personal protection and disposal is given in sections 8 and 13.

# **SECTION 7. Handling and storage.**

## 7.1. Precautions for safe handling.

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

### 7.2. Conditions for safe storage, including any incompatibilities.

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.

### 7.3. Specific end use(s).

Information not available.

## **SECTION 8. Exposure controls/personal protection.**

#### 8.1. Control parameters.

Information not available.

#### 8.2. Exposure controls.

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

#### HAND PROTECTION

Protect hands with category III work gloves (OSHA 29 CFR 1910.138).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

### SKIN PROTECTION

Wear category I professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

## EYE PROTECTION

Wear airtight protective goggles (OSHA 29 CFR 1910.133).

#### RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, wear a mask with a NIOSH certified filter, whose class must be chosen according to the limit of use concentration (NIOSH 42 CFR 84, OSHA 29 CFR 1910.134). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

|--|

# Fila Chemicals USA

Revision nr. 4

### Printed on 04/05/2015

# FUGAPROOF – FILAGROUT PROOF

Page n. 5/10

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus or external air-intake breathing apparatus. For a correct choice of respiratory protection device, see standard NIOSH 42 CFR 84 and OSHA 29 CFR 1910.134.

## ENVIRONMENTAL EXPOSURE CONTROLS.

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

## **SECTION 9.** Physical and chemical properties.

#### 9.1. Information on basic physical and chemical properties.

Appearance Colour Odour Odour threshold. pH. Melting point / freezing point. Initial boiling point. Boiling range. Flash point. Evaporation rate Flammability (solid, gas) Lower inflammability limit. Upper inflammability limit. Upper explosive limit. Upper explosive limit. Vapour pressure. Vapour density Relative density. <b>9.2. Other information.</b> Solid content:	10%

## **SECTION 10. Stability and reactivity.**

#### 10.1. Reactivity.

There are no particular risks of reaction with other substances in normal conditions of use.

## 10.2. Chemical stability.

The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions.

A	LA.
surface ca	re solutions

# Fila Chemicals USA

Revision nr. 4

# **FUGAPROOF – FILAGROUT PROOF**

Dated 4/5/2015

Printed on 04/05/2015

Page n. 6/10

No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4. Conditions to avoid.

None in particular. However the usual precautions used for chemical products should be respected.

10.5. Incompatible materials.

Information not available.

### 10.6. Hazardous decomposition products.

Information not available.

# **SECTION 11.** Toxicological information.

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled carefully according to good industrial practices. This product may have slight health effects on sensitive people, by inhalation and/or cutaneous absorption and/or contact with eyes and/or ingestion.

## 11.1. Information on toxicological effects.

Information not available.

## **SECTION 12. Ecological information.**

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

**12.1. Toxicity.** Information not available.

## 12.2. Persistence and degradability.

Information not available.

12.3. Bioaccumulative potential.

Information not available.

#### 12.4. Mobility in soil.

Information not available.
