

Square D Homeline Solar-ready Combination Service Entrance Devices for Plug-on Neutral Circuit Breakers

Engineered for value, Homeline™ Solar-ready CSEDs offer time-savings for Plug-on Neutral Combination Arc Fault (CAFI) and Dual Function Circuit Breaker installation. Our innovative, split neutrals are engineered to save you time and wire, allowing Plug-on Neutral Circuit Breakers to connect directly to the neutral bar without the pigtail. Coupled with the state-of-the-art design, our neutral bars are now fully-distributed, accepting Plug-on Neutral Circuit Breakers on any space.

★ Improve troubleshooting!

All Square D™ CAFI and Dual Function Circuit Breakers feature TIME SAVER Diagnostics which provide circuit information at the touch of a button.

The Homeline Plug-on Neutral Advantage:

- > **Faster installation** – Fewer connections
- > **Saves wire** – Fully distributed split neutral bar* with backed-out neutral screws
- > **Frees gutter space** – No pigtails
- > **Easier troubleshooting** – TIME SAVER Diagnostics provide additional circuit information at the touch of a button

**Patent applied*

by Schneider Electric

Homeline Solar-ready Combination Service Entrance Devices for Plug-on Neutral Circuit Breakers offer

- > **Solar-ready** – Suitable for use with Photovoltaic (PV) system applications as defined in NEC® Article 690.64
- > **PV system data monitoring** – Provisions for current transformers (CT) on the line side of the service disconnect
- > **Line side solar tap** – Accommodates field-installable lug kit ahead of the service disconnect to feed PV system without using a branch breaker space
- > **225 A rated bus bars** – Reduces need to de-rate the main breaker for back-fed PV systems

See the difference!

▲ Pigtail Neutral connection

- > **Less wiring**
- > **Clean gutter**
- > **Fast installation**

▲ Plug-on Neutral connection
