

Triton's Unlimited Rebate Planer offers an incredible range of innovative features and functionalities. Traditionally the rebate depth for any planer is restricted by body design, however the TRPUL is designed with the blade drum positioned to the outer most edge, allowing unrestricted depth rebates right to the edge of the workpiece. In addition, the removable blade drum system allows fitment of the sanding drum (both included) to turn the planer into a highly efficient sander. Chip extraction is maximised via the selectable left or right rear dust extraction, ensuring sawdust is directed away from the operator and the workpiece at all times.

Bail Handle

for improved ergonomics & increased control

Power-On Neon

increases operator safety

0-3mm / 0-1/8" Adjustable Depth of Cut

allows removal in one pass

Spindle Lock Button

for easy drum changes

3-Blade Drum

provides a higher rate of material removal (45000 cuts per minute)

Drum Guard

protects against exposed blades when rebating

Left Or Right Rear Dust Extraction

allows the dust/chips to be directed to either side of the workpiece

Variable Speed Control

adjusts the drum speed to suit the material

Parking Stand

protects the blades and workpiece from damage on run down
