

# CARE AND MAINTENANCE

## CLEANING YOUR APPLIANCE

**IMPORTANT:** Always unplug the unit before cleaning or performing maintenance. Never use harsh cleansers or scouring pads to clean any part of the unit. • Turn off the power, unplug the appliance, and remove all items including shelves. • Wash the inside surfaces with a warm water and baking soda solution. The solution should be about 2 tablespoons of baking soda to a quart of water.

Wash the shelves with a mild detergent solution. • Wring excess water out of the sponge or cloth before cleaning control panels or any electrical parts.
