

Resin Wicker Furniture Care

Regular cleaning is recommended for wicker, as it generally cannot endure harsh or abrasive treatments. This also minimizes mildew buildup. To remove dirt and debris, vacuum with a dust-brush attachment or use a dry paintbrush. Clean with a mild soap solution, scrub with a sponge, rinse with cold water and dry completely. Avoid sitting on the wicker when still damp, which can cause wicker to sag. If wicker furniture is caught during a sudden rain storm, please make sure to drain any water that may have accumulated inside the frame and dry completely. **Please always cover the furniture when not in use, and store properly during inclement weather and the winter/rainy seasons.**
