

CHANGE

IS EASIER THAN YOU THOUGHT

WITH SHARKBITE® TRANSITION FITTINGS

NO WAITING

Don't wait for glue to cure or solder to cool, just push-to-connect and move on.

NO SPACE

Easily join pipes in tight wall spaces and floor penetrations without having to make structural alterations.

NO TOOLS

Work in tight spaces without needing tools for crimping or clamping, avoiding potential leaks if crimp rings or clamps are not placed correctly on the fitting.

NO LEAKS

Transition between multiple types of pipe with one connection, eliminating potential leaks when threaded ends expand and contract differently.

NO PROBLEM!

Join multiple types of pipe with dependable, watertight connections using SharkBite® transition fittings.

THE VERSATILITY TO TRANSITION FROM:

- Copper
- PEX
- CPVC
- PE-RT
- HDPE
- Polybutylene
- PVC
