

WATER THAT'S GOOD FOR YOUR FAMILY, YOUR HOME & YOUR PETS

Municipal Water Filtration & Conditioning Systems

Wayde King knows a thing or two about water. After more than 30 years of designing and building custom aquatic tanks for some of the world's wealthiest and most famous clientele, Wayde created the highest quality and most efficient maintenance-free whole house water filtration and conditioning systems.

Imagine enjoying healthy spring-quality alkaline water from every faucet in your home.

Wayde King, star of Animal Planet's international hit TV show "Tanked" says, "This is the best system you could buy or I wouldn't put my name on it."

The Perfect Whole House System

Our Municipal Water Filtration & Conditioning systems organically remove hundreds of harmful chemicals and contaminants commonly found in municipal drinking water. These contaminants are detrimental to your health, deteriorate your plumbing, destroy expensive fixtures, ruin appliances, and adversely affect air quality in your home.

Some of the Many Benefits

- Industry-leading 20-year warranty
- Maintenance-free
- No salt or potassium
- No expensive filters to replace
- Prevents and reverses damage from hard water scale
- No reverse osmosis needed
- No more bottled water
- Eco friendly
- Manufactured in America

How Our Systems Work

STAGE 1 Water flows through a blend of all-natural KDF media to remove chlorine, chloramines, and heavy metals. This helps raise pH and inhibit bacterial growth. KDF also controls hard water scale and algae formation.

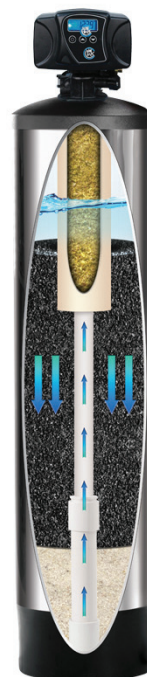

STAGE 2 Water travels through organic Centaur high-activity catalytic carbon, the highest grade of carbon available for water filtration. It provides a comprehensive ability to remove chlorine, chloramines, bromate, volatile organic compounds, pharmaceuticals, biological and chemical contaminants. It is also impregnable, giving it a much longer service life than lower grades of permeable carbons found in other systems.

STAGE 3 Water passes through a media bed of quartz gravel removing suspended solids, neutralizing flavor and odors, and providing for even water flow distribution.

STAGE 4 Water runs through our proprietary multi-polarity magnetic ionizer. This process ionizes the beneficial healthy minerals, lowering surface tension. The water actually becomes “wetter” creating excellent filtered water to more efficiently rehydrate your cells. The lower surface tension of the minerals also breaks down existing scale and inhibits build-up of future scale.

Municipal Water Filtration & Conditioning Systems

WK-WH-VOC-1252

Treats up to 8 Bathrooms

- 2,000,000 gallon capacity
- Service Flow: Up to 20 GPM
- Digital Automatic backwash
- Tank Size: 12" x 52"
- Stainless Steel Jacket

WK-WH-VOC-1054

Treats up to 5 Bathrooms

- 1,500,000 gallon capacity
- Service Flow: Up to 15 GPM
- Digital Automatic backwash
- Tank Size: 10" x 54"
- Stainless Steel Jacket

WK-WH-VOC-948

Treats up to 3 Bathrooms

- 1,000,000 gallon capacity
- Service Flow: Up to 10 GPM
- Digital Automatic backwash
- Tank Size: 9" x 48"
- Stainless Steel Jacket

WK-WH-VOC-818SS

Treats up to 2 Bathrooms

- 350,000 gallon capacity
- Service Flow: Up to 5 GPM
- Manual or Digital Automatic backwash
- Tank Size: 8" x 18"
- Stainless Steel Tank

SAVINGS PER YEAR COMPARED TO OTHER SYSTEMS	
\$300	Salt / Potassium
\$450	Wasted regeneration water from water softeners
\$350	Refrigerator or reverse osmosis filters
\$125	Water heater replacements due to rust from water softener brine water
\$1500	Bottled water

IMAGINE SPRING-QUALITY ALKALINE WATER FROM EVERY FAUCET

Healthier Water for Drinking and Cooking

- Removes volatile organic compounds, heavy metals, pharmaceuticals, biological and chemical contaminants to provide healthier, better tasting food and drinks.

Improves Air Quality in Your Home

- Contaminated water can pollute the air through evaporation and steam. Helps improve indoor air quality.

Less Soap and Detergent

- Soap lathers better in conditioned water, reducing the consumption of soaps and detergents.

Softer Hair and Skin

- Maintain the natural moisture of your hair and skin by reducing your exposure to harsh chemicals such as chlorine and chloramines.

Naturally Prevent Hard Water Scale Build-Up Without the use of Salt or Potassium

- Scale-free water from every faucet without the use of salts, chemicals or synthetics.
