

Installation Guide

How to Form a Root Guard Basket to the Root Ball of the Plant

Use this process with plants that are mature and not root bound

Plant and Root Guard
(5-gallon Size Shown)

1: Open and form bottom
of Root Guard

2: Remove plant from pot
and place in Root Guard

3a: Fold side seam to
root ball

3b: Rotate and fold other
side seam to root ball

4a: Fold side seam to
bottom to root ball

4b: Fold other side seam to bottom of root ball

5: Ready to plant
