

## Ceiling Fan FAQ's

### Frequently Asked Questions

<b>Question</b>	<b>Answer</b>
Can this fan be flush mounted?	The fan may be flush mounted, or mounted using the supplied down rod(s)
Can this fan be mounted on a sloped/vaulted ceiling?	The ceiling fan can be mounted to a vaulted ceiling, provided the ceiling angle is no greater than 25 degrees
Does this fan come with a remote control?	This item contains a remote and receiver
Can I use a universal remote with my fan?	To use a universal remote/receiver, ensure there is sufficient space above the canopy for receiver installation
Is the light kit dimmable?	The light kit is dimmable with the use of standard incandescent bulbs.
Can I use LED or CFL bulbs?	LED or CFL bulbs may be used, but this may affect the use of the dimmer function. Not all LED or CFL bulbs are compatible with standard dimming functions
Can I use a wall switch with my fan?	Only a ceiling fan-approved wall switch may be used with the ceiling fan
Can I use a longer down rod with my ceiling fan?	The fan is compatible with ½" diameter, pin-style installation down rods
