- Swages 3/16 in., 1/4 in., 5/16 in., 3/8 in., 1/2 in. and 5/8 in. O.D. tubing
- Requires hammer for use
- Durable, hardened steel construction for a long-lasting use

**Product Overview**

Husky's Swaging Tool joins like-size copper tubing and eliminates the need for couplings. It has 6 swaging size capabilities from 3/16 in. to 5/8 in. diameter. It features a hardened steel construction for long-lasting durability.

**Operating Instructions**

Read all instruction carefully before using

1. Insert swaging tool into one end of copper tubing until snug.
2. Strike base of swaging tool with hammer until tube forms around expansion section of tool.
3. To solder joint, follow instructions provided by manufacturer of solder flux.

Tool needed for use: Hammer
