Safety Information

Please read and understand this manual before installing this product.

CAUTION: Always be cautious when using power tools.

Warranty

Subject to the terms of this warranty, the Manufacturer warrants to the original consumer purchaser that the product will be free from defects in material and workmanship. If the product does not comply with this warranty, the Manufacturer will repair or replace the product or, at the Manufacturer's option, refund the purchase price. Repair, replacement, or refund of the original purchase price is your sole remedy under this or any other warranty on the product, whether expressed or implied.

For additional details and questions, please contact Everbilt Customer Service at 1-800-305-1726.
Installation Options

1 Is this the right slide for my project?

Please check the following points

- Drawer dimensions need to be met to fit slides
- Fits 21 in. deep drawers
- These slides can be installed in frameless and face frame cabinetry. Instructions for both options are provided in this manual.
- The drawer side thickness can be 1/2 in. (13 mm) or 5/8 in. (16 mm), but no thicker.

- 1/4" (6 mm)

- 3/8" (10 mm)

- 1/4" (6 mm)

- 3/8" (10 mm)

- 1/4" (6 mm)
Face Frame Installation

1 Preparing the slides

- Slide plastic connector from rear metal bracket into the notch on the left and right drawer slides (A and B) forward, as shown.

2 Face frame application

Cabinet front edge

- Setback 3/32" (2 mm)
- Front gap 1/16" (1.5 mm)

Insert application increases minimum cabinet depth by thickness of decorative front.

Minimum/maximum cabinet depth (see below)

Inset application increases minimum cabinet depth by thickness of decorative front.

<table>
<thead>
<tr>
<th>Drawer box length</th>
<th>Minimum / maximum inside cabinet depth with metal rear attachment bracket</th>
</tr>
</thead>
<tbody>
<tr>
<td>inch mm</td>
<td>inch mm</td>
</tr>
<tr>
<td>21&quot; (533 mm)</td>
<td>21 7/8&quot; - 23 3/4&quot; (555 - 605 mm)</td>
</tr>
</tbody>
</table>

Please contact 1-800-305-1726 for further assistance.
Face Frame Installation

3 Metal rear attachment set (screw-on)

- Set contains 2 metal rear mount brackets and 2 plastic connectors
- Non-handed, two-piece design
- For up to 50 mm (1 15/16”) depth adjustment and ± 1,5 mm (1/16”) side adjustment
- Additional adjustment via oblong holes
- Installation recommended with minimum of four panhead screws (F)

* Center of the metal rear bracket = Width of the face frame - Thickness of the cabinet side panel + 3/8” (10 mm)

** The Face Frame Bracket can also be placed upside down
Frameless Installation

1 Frameless application

- Attach the left and right drawer slides (A and B) to the inside of the cabinet using #6 x 5/8 in. screws (G).
- Ensure you leave a 1/16 in. (2 mm) space between the face of the cabinet and the start of the drawer slides.
- Proceed to Drawer Installation and Removal when finished.

2 Installing the drawer slides

<table>
<thead>
<tr>
<th>Drawer box length</th>
<th>Minimum inside cabinet depth</th>
</tr>
</thead>
<tbody>
<tr>
<td>inch mm</td>
<td>inch mm</td>
</tr>
<tr>
<td>21&quot; (533 mm)</td>
<td>21 5/8&quot; (550 mm)</td>
</tr>
</tbody>
</table>

Inset application increases minimum cabinet depth by thickness of decorative front.
Drawer Installation and Removal

1 Installing the drawer catches
   - Install each drawer catch (C) into the two front corners of the drawer using #6 x 3/4 in. screws (H) or #6 x 1 in. screws (I). If you need to install the screws at an angle, do not angle the screws more than 30°. If your door subfront is 1/2 in. (13 mm) use the optional spacers (D).

2 Installing the drawer
   - Insert the drawer onto the glides inside the cabinet and push inside until the drawer catches click.

3 Removing the drawer
   - Gently pull each drawer catch lever and slide the drawer out to remove.
