## 5 Instructions

### Application of Product

**USE CHEMICAL-RESISTANT GLOVES, such as nitrile, when handling product.**

Read entire label before using. Apply a coat of Grout Release, ensuring 100% surface coverage using a sponge applicator, heavy-textured paint roller or brush. Allow a minimum of 30 minutes drying time before grouting. Follow grout manufacturer's instructions for grouting process. Grout Release residue should be removed through normal grout cleanup process.
