

Care and Cleaning of Contractors Wardrobe® Products

To enjoy many years of service from our fine quality products, please follow these instructions:

MYSTIQUE™ GLASS

Mystique™ glass is beautiful, but can be a challenge to clean. It can be vulnerable to grease stains, as well as simply accumulating dirt and dust over time. However, by using the proper strategies, it is possible to keep Mystique™ glass clean with a minimum of effort and time.

Glass Cleaner. You can make your own glass cleaner that will do a great job of cleaning Mystique™ glass. It will even remove fingerprints. To make your own glass cleaner, you only need water, isopropyl alcohol, and ammonia – all common household cleaning agents. Mix all three ingredients in equal amounts and you will be ready to keep even the most difficult glass clean.

Alternatively, you can use commercially available window cleaner.

Applying. Put your glass cleaner of choice into a spray bottle and apply it to your Mystique™ glass. Then, wipe it away using a soft cloth. Lint can be as big of a problem as the original dirt, so we recommend using a microfiber cloth.

Mr. Clean Magic Erasers are also a favorite tool of ours.

"We Set The Standard."

**Shower Enclosures • Duratuf® Tempered Safety Glass • Painted Glass
CwShield™ Protective Coating • Room Partitions and Loft Dividers
