Warranty

WHAT IS COVERED

This warrants the original purchaser that this product will be free of manufacturing defects under normal domestic use for the life of the product beginning from the original date of purchase. Present warranty does not extend to anyone except the first purchaser at retail. Also, an original sales receipt must be obtained in order for the warranty to be valid. To obtain warranty service, contact the retailer from which the product was purchased.

WHAT IS NOT COVERED

Present warranty excludes damages resulting in whole or in part from installation error, product abuse, misuse, neglect, any alterations to products, improper maintenance, abrasives, corrosion and / or accidents, whether caused by a professional or anyone else.

Limited Life Time Warranty does not apply to products used in or used for industrial, commercial, or business environment purposes. The Limited Warranty is valid for 1 year under these conditions.

Any and all accessories that are subject to any type of harsh abrasive, such as detergents or window cleaners, will not be covered under the warranty. The manufacturer is not responsible for any labor or shipping charges, or damages whatsoever incurred in whole or in part from installation, removal, re-installation, repair, or replacement of any product or part, as well as any incidental or consequential damages, expenses, losses, direct or indirect, arising from any cause whatsoever.

Pre-Installation

PACKAGE CONTENTS

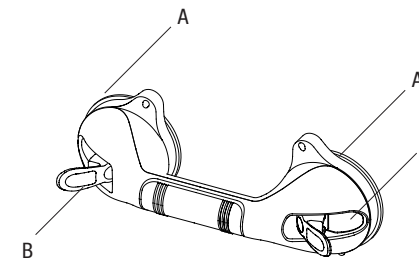

Part	Description	Quantity
A	Rubber disc	2
B	Release tab	2
C	Indicator	2

Installation

1 Installing the suction assist bar

 NOTE: The flip-up easy release tabs (B) should be loose at this point. Ensure that the rubber discs (A) are completely on the tile area or other smooth surface so that the discs do not cover any grout lines or other joints.

- Clean the rubber discs (A) and the surface it is to be attached to thoroughly.
- Press down on the flip-up easy release tabs (B). You will feel negative pressure. The greater the pressure, the better the suction.

2 Testing the suction assist bar before use

 NOTE: The indicators on the side of the suction cup will change from red to green when a safe and secure hold is achieved.

- Before each use, test the firm hold of the suction device. Ensure that both indicators (C) are GREEN.
- If the adhesion seems insufficient, release the suction assist bar and reattach again.
- If the required suction power has not been achieved, do not use the suction assist bar.
