

PUG3191TQ

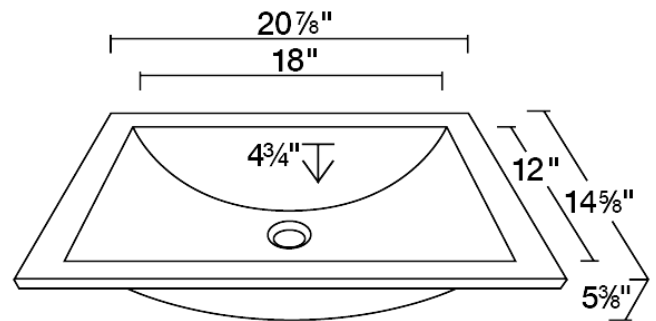

Undermount Rectangular Glass Sink

The PUG3191TQ Colored Glass Undermount Sink is created of fully tempered glass, which means it can withstand higher temperatures without incurring damage. Because it is non-porous, glass is also one of the most sanitary materials available in sink designs. This glass model provides the beauty of glass, usually seen only in vessel sinks, in an under-the-counter installation. Undermounting a bathroom sink creates a sleek look and allows for more space on your countertop. The overall dimensions of the PUG3191TQ are 20 7/8" x 14 5/8" x 5 3/8" and requires a 24" minimum cabinet width. Grid drains in a variety of finishes are available with this sink model, and as always, our glass sinks are covered under a limited lifetime warranty for as long as you own the sink.
