

Assembly Instruction

1. Identify all parts packed in carton against the part list. Remove all protective material carefully and avoid cutting the surface of the furniture while removing the wrapped material.
2. Place the base on a non-abrasive, flat surface. Remove the bolts and nuts from the glass springs at the open end of the rocker mechanism (See diagram).
3. Note the arrow labels on the rocker mechanism and on the chair support bar. Place the bar on top of the glass spring and make sure the arrows are pointed at same direction in front of the chair.
4. Align the holes on the support bar, the holes on the glass springs and the plate keeper. Glide the bolts through the holes. Place the plate keeper beneath the glass springs and glide the bolts through the holes on the plate. Fasten the four parts together with flat washers and nuts. (See diagram).
5. Tighten all the bolts and nuts including the ones at the front part on the rocker mechanism. Test the swivel rocker gently. If the rocker does not rock properly, double check the assembly procedure, especially step 3.

Parts	Description	Quantity	Parts	Description	Quantity
	Chair Bucket	1		Bolt	8
	Base	1		Flat Washer(M6)	8
	Plate Keeper (\varnothing 138*2.5)	6		Lock Washer	8
				Nut(1/4-20inch)	8

Warning: Do not force components and over tighten the nuts during assembly.
