

Add on Blinds for Doors

Product Description

Add-On Blinds offer unlimited adjustability for controlling light and privacy levels and easily install over existing doorglass in minutes.

Behind a layer of tempered safety glass, the blinds are protected from dust damage and everyday use. The enclosed blinds are safe for kids and pets and eliminates the banging and swinging experienced with traditional blinds.

ODL Add-On Blinds offer reduced travel raise/lower and tilt with smooth fingertip control. The additional layer of clear, tempered safety glass reduces heat loss in the winter and solar heat gain in the summer.

Available in popular doorglass, sidelight and patio door sizes, each unit comes in a single pack or retail pack of 4 per carton.

Key Benefits

Light and privacy control

- Provides multiple levels of privacy
- Regulates light and U.V. rays
- Reduces solar heat gain

Simplifies maintenance

- No dusting
