Safety Instructions
When using any electrical product, basic safety precautions should always be followed including the following:

- Informed operation and improper use can damage the product and cause injury to the user.
- Keep the unit away from heat sources, direct sunlight, humidity, water and any liquids.
- Do not use the unit if it has been dropped or damaged in any way.
- Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.
- Do not put objects inside any of the openings.
- Indoor use only.
- Keep the unit free from dust, dirt etc.
- Do not use the unit with wet hands.
- Do not use the unit for anything other than its intended use.
- Keep the unit out of reach of children.
- This product is not a toy.
- Do not use abrasive cleaning solvents to clean.
- To minimize the risk of fire or electrical shock, avoid operating in wet conditions such as rain or humidity.
- Do not expose to excessive heat such as sunshine, fire etc.
- Never immerse the unit in water or any other liquid for cleaning purposes.
- Always disconnect from the mains after use.

NOTICE
- The device contains small parts which may present a choking hazard to children.

Warning
This is a Class II appliance. This means it is designed to provide reasonable protection against harmful interference to persons on the mains. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Returning the product from the supply if it is left unattended and before cleaning.

Cleaning & Maintenance
Unplug the product from the supply if it is left unattended and before cleaning.

Storage
Do not add any fluids or solids to your lamp.
Do not use the product if it has been damaged in any way.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Guideline for protection of the environment
This appliance should not be put into the domestic garbage at the end of its usefulness, but must be disposed of as a special waste for recycling of electrical and electronic devices.
