So Simple... You can do this!™

Step 1 Location - Wall Cutout

PowerOUT - Determine TV wall mount bracket location.

Align between wall framing studs.

Use stud finder to determine in-wall obstructions between framing both VERTICALLY and HORIZONTALLY.

Install in any direction, right/left, horizontal or vertical below, above, next to TV wall bracket.

PowerIN - Align with upper PowerOUT within same stud-bay no more than 60" apart.

Install within 60" from an existing power outlet or power-surge device.

Use supplied template sheet to mark area to cut out from drywall.

Use a level to maintain proper alignment.

Carefully use drywall saw or utility knife to cut along outside of line.

Need to extend the length?
Part# CKRE Extension Kit available
www.PowerBridgeSolution.com/CKRE.html

If insulation exists, remove or push completely away from the openings to allow proper flush mounting.

Step 2 Wall Installation

A) Begin at the upper PowerOUT location.
Drop or wall-fish audio video cables FIRST, to the PowerIN location below.

REPEAT for PowerConnect cable with connector.

Pull all cables out lower cutout.

Drop or wall-fish audio/video cables within wall BEFORE PowerConnect cable

B) Slide audio video cables through backside of CableBrush.

Allow for enough cable length out to connect to TV.

C) Slide PowerOUT into wall opening.
Use Flat-Blade screw driver to secure panel to wall.
Careful to not over-tighten.

D) At PowerIN location, connect both PowerConnect Cable connectors together. These are tight by design and require some pressure and wiggling to secure.
You should hear a click sound locking both connectors together.

Listen for the Click

 To disconnect PowerConnectors, push-in end of Locking Latch on the TOP side of both connectors. Press with finger tips at the same time pulling apart connectors to disconnect from Locking Tabs.

E) Slide audio video cables through backside of CableBrush.
Allow for enough cable length out to connect to AV equipment.

F) Slide PowerIN panel into wall opening.
Use Flat-Blade screw driver to secure panel to wall.
Careful to not over-tighten.

Step 3 Plug it in

Plug supplied 6' PowerConnect cord into PowerIN.
Plug other end into existing grounded outlet or surge protector.
CAUTION-Risk of Fire-Only Use Cord Set Provided With This Kit or equivalent.

The PowerBridge In-Wall Extension is now energized.

Plug TV power supply cord in to PowerOUT and connect AV cables to TV.
Follow wall mount manufacture instructions, install TV on wall bracket.

Plug in TV

Plug in Flat Angle Plug

Surge Protector

Existing Outlet
