- Mesh-mounted mosaic tiles are easier to install than traditional tile formats. Can be used as whole sheets, or cut to make inexpensive feature strips.
- Easy handling and installation of tile. Cuts installation time vs. installing individual pieces.
- Mosaics are excellent as stand-alone pieces or used with complementing stone, ceramic, or glass field tiles.
- Glass mosaics are not recommended for floor applications as they are susceptible to scratching. Glass tiles can be cleaned with any non-abrasive cleaning formula recommended for both glass and stone. Follow manufacturer instructions.
- Blending from several boxes during installation is recommended.
