

Silent Mode with Whisper Quiet Fan

Easy to Clean Permanent Filters

Seven Stage Air Purification

Upright Design for Unobstructed Air Flow

One Replaceable Filter Lasting up to 2 Years

Computerized Air Monitoring for Reduced Energy Use

Easy Operation with Smart Sensor Technology

Effective on Virtually All Pollutants within 650 ft²

NaturoPure™ MULTI-TECHNOLOGY

AIR PURIFIER

HF 380

Innovative Devices for a Healthy Life

NaturoPure™ MULTI-TECHNOLOGY

AIR PURIFIER

HF 380

Seven Technologies...
For the Purest Air Possible

Easy Maintenance with Smart Sensors

Active sensors monitor air quality and tell you when to clean filters.

Auto-Adjusts to Your Environment

Sensors automatically boost cleaning power when needed.

No Clog Design for Rapid Purification

Purifies the air in an area up to 650 ft² in just 50 minutes.

Low Cost Maintenance

Three permanent filters extend the life of the replaceable filter.

One Long Lasting HEPA / Carbon Filter

Up to two years of 24/7 use. Sensors indicate when to replace.

Effective Air Circulation

Clean air is directed upwards for unobstructed air circulation.

Whisper Quiet Operation

Advanced fan design delivers rapid air flow at just 20 decibels.

Targets All Pollutants

Multiple purification technologies target virtually all pollutants.

Our Proprietary 7 Stage Air Purification Process

Removes

SMOKE

DUST MITES

MOULD

VIRUSES

POLLEN

PET DANDER

DUST

BACTERIA

ODOURS

Automated Control Panel

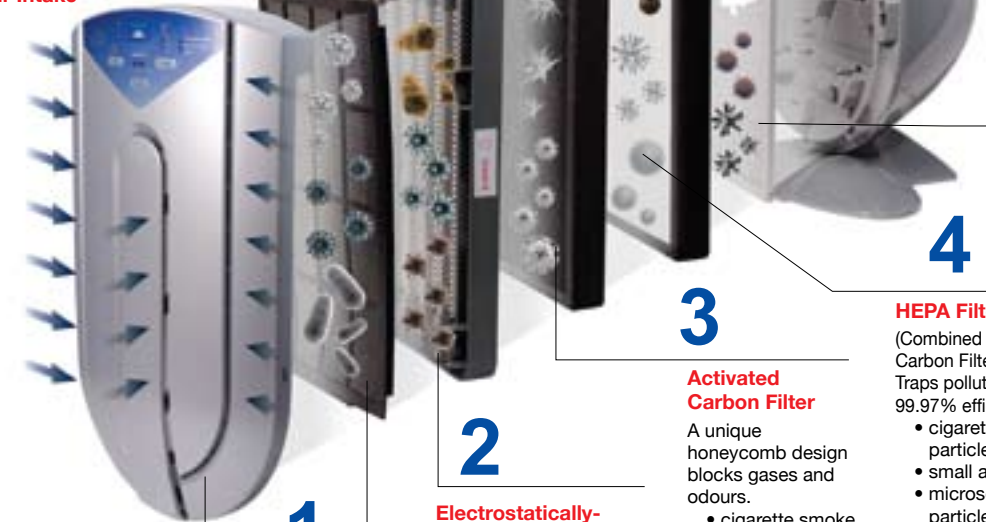

Smart sensors monitor UV light, negative ion output and indicate when to clean filters. Sensors automatically boost cleaning power when additional impurities are detected.

Convenient Handle

Dust & Irritant Sensor

Advanced Monitoring Sensors

Air Intake

1

Efficient and Effective Air Flow

180 degree air intake means you can place the unit directly behind furniture without blocking air flow. Clean air is directed upward for effective air circulation.

Washable Pre-Filter

Designed to filter larger particles and prevent clogging.

- hair
- large dust particles

2

Electrostatically-Charged Plasma Array

Magnetically traps the tiniest of impurities on a washable collection grid. Extends life of the Activate Carbon/HEPA filter for up to 2 years.

- micro dust particles
- pet dander
- pollen
- dust mites
- dust mite feces
- bacteria
- mould

3

Activated Carbon Filter

A unique honeycomb design blocks gases and odours.

- cigarette smoke
- formaldehydes
- ammonia (pet & perspiration odours)
- VOCs
- NOx gas

4

HEPA Filter

(Combined with Active Carbon Filter)
Traps pollutants at 99.97% efficiency rate.

- cigarette smoke particles
- small allergens
- microscopic particles

5

TiO₂ Photocatalytic Oxidation Filter

Activated by UV light, it releases free radicals that destroy organic based pollutants.

- bacteria
- mould
- viruses
- odours
- formaldehydes
- ammonia
- VOCs

6

Ultra Violet Light

Works independently to neutralize micro organisms.

- bacteria
- mould
- viruses

7

Negative Ions

Trillions of healthy negative ions fill your room for continued cleaning.

Odour Sensor

A Smart Choice for Your Family

When you want to be sure that you are getting the purest air possible, rely on the NaturoPure™ Multi-Technology Air Purifier from Heaven Fresh. With Smart Sensors for ease-of-use and a proprietary 7 stage purification process, it helps to eliminate virtually all impurities from your air, leaving it fresh

and energized. Suitable for areas up to 650 ft² in size, this amazing cleaning device is designed for low power consumption, efficient air distribution and whisper quiet operation. Its an ideal tool for healthy living. Enjoy years of worry free operation with our comprehensive 3 year warranty.

SPECIFICATIONS	
Model	NaturoPure™ HF 380
Rated Voltage	100-120V AC 50-60Hz
Power Consumption	80W (Highest setting)
Activated Oxygen	<0.008 ppm (Virtually non existent)
Negative Ions	>4,000,000/cm ³
UV Light	20uw (254nm)
Sound Levels (db)	Quiet 20 / Low 35 / Med 45 / High 52
Clean Air Production Flow	106 ft ³ per minute (Highest setting)
Removal Rate	99.97%
Dimensions	13.5 (L) x 10 (W) x 24 (H) (inches)
Weight	15 lbs (6.8 kg)
Applicable Area	650 ft ² (60.4 m ²)
