United States Material Safety Data Sheet

Swiss Farms Products Inc. 3993 Howard Hughes Parkway Las Vegas, Nevada 89169-6754 United States

VIGORO WEED & FEED FOR BAHIA & MIXED LAWNS I 29-0-3

Section 1. Identification

GHS product identifier	:	VIGORO WEED & FEED FOR BAHIA & MIXED LAWNS I 29-0-
Product type	:	Pesticide Fertilizer
SDS # EPA Registration Number:	:	320000006185 538-270-73327

Relevant identified uses of the substance or mixture and uses advised against Use only in accordance with label directions.

Section 2. Hazards identification

This product is regulated by the Environmental Protection Agency (EPA) for label precautionary text see Section 15.

OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).	
Classification of the subs mixture	ance or : ACUTE TOXICITY (inhalation) - Category 4 EYE DAMAGE/IRRITATION - Category 2B	
GHS label elements		
Hazard pictograms		
Signal word	: Warning	
Hazard statements Precautionary statement	No known significant effects or critical hazards.	
Report version.Re port Version: version	Date of issue/Date of revision : Validity date***. Date of previous issue : 00/00/0000	

General Prevention	•	Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. Wear eye or face protection. Use only outdoors or in a well-ventilated
Response	:	area. Avoid breathing dust. Wash hands thoroughly after handling. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
Storage Disposal Supplemental label elements Hazards not otherwise classified	•••••••••••••••••••••••••••••••••••••••	Not applicable. Not applicable. None known. None known.

Section 3. Composition/information on ingredients

Substance/mixture	:	Mixture
Chemical name	:	Not available.
Other means of identification	•	Not available.

Ingredient name	%	CAS number
Acetic acid, 2-(2,4-dichlorophenoxy)-	1 - 3	94-75-7

Any concentration shown as a range is to protect confidentiality or is due to batch variation. **Occupational exposure limits, if available, are listed in Section 8.**

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. If irritation persists, get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Get medical attention if adverse health effects persist or are severe. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
Ingestion	: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink.
Report version.Re port	
Version: version	Date of issue/Date of revision: Validity date***. Date of previous issue: 00/00/0000

Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contact Inhalation Skin contact Ingestion	•	Causes eye irritation. Harmful if inhaled. No known significant effects or critical hazards. May be irritating to mouth, throat and stomach.
Over-exposure signs/symptoms		
Eye contact	•	Adverse symptoms may include the following: irritation watering redness
Inhalation	:	No specific data.
Skin contact	:	No specific data.
Ingestion	:	No specific data.
Indication of immediate medical atte	entior	n and special treatment needed, if necessary
Notes to physician	•	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	:	No specific treatment.
Protection of first-aiders	:	No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media

	ttinguishing m e extinguishing		Use an ext None know	0 00	able for the surroundi	ng fire.
Specific haza chemical	ords arising fro	om the : N	No specifi	c fire or explosion ha	azard.	
Hazardous decomposi	s thermal tion products	c	Decompos carbon dio carbon mo nitrogen o	noxide	nclude the following r	naterials:
	Report version.Re port					
Version:	version	Date of issue/Date o	f revision:	Validity date***.	Date of previous issue:	00/00/0000

apparatus.

		halogenated compounds metal oxide/oxides
Special protective actions for fire- fighters	:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	:	Fire-fighters should wear appropriate protective equipment and self- contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel For emergency responders	•	
Environmental precautions	•	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for containme	ent ai	nd cleaning up
Spill	•	Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas.

Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective n	neasures	not ing adequa inadequ made f Empty	Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.		
Advice on g hygiene	eneral occupationa	materia and fac clothin	Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.		
	Report version.Re				
	port				
Version:	version Date	of issue/Date of revision	n: Validity date***.	Date of previous issue:	00/00/0000

Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use.
Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

:

Control parameters

Occupational exposure limits

Ingredient name		Exposure limits
Acetic acid, 2-(2,4-dichlore	ophenoxy)-	OSHA PEL 1989 (1989-03-01)
		PEL: Permissible Exposure Level 10 mg/m3
		OSHA PEL (1993-06-30)
		PEL: Permissible Exposure Level 10 mg/m3
		NIOSH REL (1994-06-01)
		Time Weighted Average (TWA) 10 mg/m3 ACGIH TLV (1996-05-18)
		TLV-TWA: Threshold Limit Value - Time weighted average PEL:
		Permissible Exposure Level 10 mg/m3 Form: Inhalable fraction
Appropriate engineering	controls :	Use only with adequate ventilation. Use process enclosures, local
rippi oprinte engineering		exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
Environmental exposure	controls :	Emissions from ventilation or work process equipment should be
Lin (in oninientar exposure		checked to ensure they comply with the requirements of
		environmental protection legislation. In some cases, fume scrubbers,
		filters or engineering modifications to the process equipment will be
		necessary to reduce emissions to acceptable levels.
Individual protection meas	sures	
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical
	·	products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated
		clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	:	Protective eyewear is not required, but may be used in situations were contact is expected.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved
Report		
version.Re		
port	Della d'ince /D	
Version: version	Date of issue/Dat	e of revision: Validity date***. Date of previous issue: 00/00/0000

		standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.
Body protection	:	Wear long-sleeved shirt, long pants, shoes with socks., Remove and wash contaminated clothing before reuse.
Other skin protection	•	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

Appearance

Physical state	•	solid [granular solid]
Color	:	Various
Odan		Dhanaur
Odor	:	Phenoxy
Odor threshold	:	Not available.
рН	:	Not available.
Melting point	:	Not available.
Boiling point	:	Not available.
Flash point	:	Not available.
Evaporation rate	:	Not available.
Flammability (solid, gas)	:	Not available.
Lower and upper explosive	:	Lower: Not available.
(flammable) limits		Upper: Not available.
Vapor pressure	:	Not available.
Vapor density	:	Not available.
Relative density	:	Not available.
Solubility	:	Not available.
Partition coefficient: n-	:	Not available.
octanol/water		
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
Viscosity	:	Dynamic: Not available.
		Kinematic: Not available.

Report version.Re port Version: version

Date of issue/Date of revision: Validity date***.

Section 10. Stability and reactivity

Reactivity	:	No specific test data related to reactivity available for this product or
		its ingredients.
Chemical stability	:	The product is stable.
Possibility of hazardous reactions	:	Under normal conditions of storage and use, hazardous reactions will
		not occur.
Conditions to avoid	:	No specific data.
Incompatible materials	:	No specific data.
Hazardous decomposition	:	Under normal conditions of storage and use, hazardous decomposition
products		products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
	LD50 Oral	Rat	> 5,000 mg/kg	-
	LC50 Inhalation	Rat	2.35 mg/l	4 h
	LD50 Dermal	Rat	> 5,000 mg/kg	-

Conclusion/Summary

Very low toxicity to humans or animals.

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation

Section 13. Disposal considerations

Disposal methods The generation of waste should be avoided or minimized wherever : possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
