

BOBI MAILBOX USE & CARE INSTRUCTIONS

- First clean the mailbox with gentle soap and water using a soft sponge or cloth.
- Second rinse the mailbox with water and then dry with a soft cloth.
- Once a year spray a little lubricant like WD40 onto a key and insert into the lock to help keep the lock working great.
- Regular cleaning and maintenance will help your Bobi look great for many years.

Note: The Bobi Mailbox does not have the ability for leaving "outgoing" mail for the postman. There is no flag or place to leave outgoing mail. USPS recommends all homeowners deposit outgoing mail at their local Post Office or approved USPS drop box location to help prevent mail theft.
